

Every Child Talk about Jesus Every Year

Not a slogan- A GOAL

Jerrell Gilkeson
Atlantic Union Office of Education

If a student had only one chance to learn some thing...what would you choose for them to learn? That is

a poor question because; students learn many things from each experience. Seventh-day Adventist teachers want their students to know about Jesus. They want them to experience Him in the context of a rich academic environment. Part of that education is hands on, doing

for others, experiencing life in all of its range of emotions. This is why the expression: Say – See– Do is so powerful. The students hear their teachers, see them in action, and then get to do it themselves they do not forget. That is why our students need to talk about Jesus- so they won't forget HIM!

Your Story

Anybody can do this...

This is the place where your success and what God has done for you will be published. Atlantic Union teachers and chaplains are doing so many wonderful things that must be shared. When others do something, we have a path to success.

We heard what you did last year...

There are so many good stories of what our children are doing with the help and guidance of their teachers. If you will tell us what you did, we will share the good news.

Please e-mail pictures and short (100wd.) stories to education@atlanticunion.org . The word will get out.
